

# Join the EOSC Support Office Austria

## Become part of a strong Science Community in Austria!

The EOSC Support Office Austria (EOSC SOA) is dedicated to fostering a strong research ecosystem and advancing the implementation of the **E**uropean **O**pen **S**cience **C**loud in Austria (**EOSC**). EOSC is a federated, transparent system for searching and accessing data and services – across disciplines and national borders. EOSC SOA and our partners play an active role in this building process.

### Benefits of joining

#### Remain up to date on the latest developments.

Partners receive updates on innovations, policies, and good practices within EOSC. Look at our curated [Resource Collection](#).

#### Stay connected with your peers.

From our [Events Calendar](#) to our [Newsletter](#) and Mailing List, there are many ways to stay informed, enhance your professional network, and use our channels to reach a broader audience.

#### Benefit from practical materials.

Explore a collection of adaptable [materials](#) – including guidelines and good practices – designed to support the implementation of Open Science and EOSC principles in your projects.

#### Contribute to progress.

Take part in events like the [EOSC Café and the annual General Assembly](#) to stay engaged with the evolving research landscape. Collaborate with experts on key topics and contribute to the development of EOSC through ongoing community consultations.

#### Discover opportunities for collaboration and funding.

We actively identify and share [funding opportunities](#) to support the development of EOSC. By participating, you can strengthen project consortia and enhance your chances of securing new grants.

#### Bring in your ideas.

We support active engagement in the realisation of EOSC and value your input in fostering "[EOSC Readiness](#)" at partner institutions. We are eager to help coordinate initiatives and share practices that address your needs.

### Together, we shape the future of science.

Join the EOSC Support Office Austria to have a **collective voice** in forming EOSC. Become part of a vibrant and collaborative research community!
